Safe In Our World is a registered charity in England and Wales no. 1183344. A team of seasoned gaming veterans passionate about mental health brainstormed for over two years over ways they could make a difference. Launched on World Mental Health Day on October 10th, 2019, its aims are to raise awareness of mental health within the video games industry and to provide resources, signpost help, and drive change for everyone connected with the industry – from developers, publishers, and service providers to content creators and players. Its initial mission is to create an online destination where people can seek help, gain access to resources and information, and discover stories from real people within and surrounding the games industry, with more detailed policies available via the website.
